## Our Daily Bread

Try Thanksgiving

Read: Psalm 92:1-9

It is good to give thanks to the Lord, and to sing praises to Your name, O Most High. —Psalm 92:1

When we're going through a difficult time, we may not feel particularly grateful. Yet, even in periods of suffering and fear, we can thank God for His abundant promises and unfailing goodness. When we do express our gratitude to God, a wonderful change takes place within us.

Henry W. Frost, veteran missionary to China, discovered this for himself. He said, "I had received sad news from home, and deep shadows had covered my soul. I prayed, but the darkness did not vanish. I summoned myself to endure, but the darkness only deepened. Then I went to an inland station and saw on the wall of the mission home these words: Try Thanksgiving. I did, and in a moment every shadow was gone, not to return. Yes, the psalmist was right. 'It is good to give thanks to the Lord.'"

Perhaps you have felt a shadow come over your spiritual life recently. Or maybe you're struggling under heavy burdens that seem unbearable. If so, bow your head and thank the Lord for all He has done for you. Tell Him you know He loves you and has not abandoned you. Express your gratitude for your salvation, for life itself, and for the good things He has given you. Then you will begin to experience for yourself the blessing of thanksgiving.

The way God tells us to be,  
What a wonderful change in our living  
We would be able to see! —Eaker

A heavy heart is made lighter  
when the weight of ingratitude is lifted.

# Proper Recycling Composting

## A Guide to Doing it right in Lawrence and Mercer Counties

### What is Composting?

Composting is the human intervention in the natural decay process. In nature, this process can take up to two years. We can shorten this process to six to seven weeks by adjusting and maintaining the moisture, oxygen, and Nitrogen content of the organic materials that we are composting.

### Why is Composting Important?

Food and yard waste make up about 30% of our waste stream. Composting is a great way to reduce our waste, save landfill space, sequester carbon, and reduce greenhouse gas emissions. Finished compost is an excellent soil amendment and great way to improve your soil.

Residents and businesses in municipalities of more than 5,000 people are required by State law to separate leaf waste from other waste. These municipalities must also provide a collection program for the material.

### Do I need a Compost Bin?

You can compost with or without a bin. People who want to use a bin can build their own or purchase a commercially available bin. There are plans available online to build a variety of bins.

### How do I Compost?

- 1) First, pick a location for your compost pile. It should be convenient for you, partly shaded, dry, and flat. Items to consider when picking a location include your neighbors, water supply, and end use of the finished compost.
- 2) Next, add your materials. The ideal ratio is three parts brown materials to one part green material. Green material is higher in Nitrogen which feeds the microbes that drive the compost process. See the side bar for common brown and green materials. You may substitute a small amount of a Nitrogen fertilizer if you don't have green material available. Conversely, you can use sawdust or shredded paper/cardboard if you are short on brown materials.
- 3) Make sure your compost pile has sufficient moisture. It should feel slightly moist. If it is too dry, add water, and if it is too wet, add material.
- 4) Turn (mix) the pile every seven days. Check the moisture content after turning.
- 5) You should have compost in six to seven weeks if you followed the 3:1 recipe, turned it regularly, and maintained the proper moisture content.

### What can I use Compost for?

Finished compost is a great soil amendment that should be mixed in with the top six inches of soil. Compost is also a suitable mulch. Compost can be used as a potting mix - no more than a quarter to a third of the total potting mix should be compost.

### What should I avoid putting in my Compost Bin?

Meat, Poultry, & Fish  
Diseased Plants  
Weeds w/Seeds  
Coal Ash

Dairy Products  
Pet Feces  
Branches  
Bones

Cooking Oil/Oily Foods  
Invasive Weeds  
Treated Sawdust

There are many sources of information available that cover all aspects of backyard composting. Be sure to visit our websites to download our "Keep it at Home: Compost" booklet for more detailed information.

#### Common Brown Material

Leaves  
Bark  
Straw  
Pine Needles  
Twigs  
Newsprint  
Cardboard  
Wood Chips  
Sawdust

#### Common Green Material

Grass Clippings  
Vegetable Scraps  
Fruit Rinds/Peels  
Manure  
Coffee Grounds  
Pumpkin Shells  
Seaweed/Pond Algae

## Outdoor Opportunities By COL (Ret.) Grey D. Berrier II

Hunters Sharing the Harvest: We've Kicked Off  
and Now You Can Join the Team

November 10 is always a significant day for my brothers and sisters-in-arms who are currently serving or proudly served as Marines, since it is the U.S. Marine Corps Birthday, commemorating their founding in 1775. Marines everywhere come together on this day to celebrate their long, proud, and distinguished history. This year, Nov. 10, brought together a very different team here in Western PA that I was humbled to be part of. Hunters Sharing the Harvest, Pennsylvania's venison donation program to help our many neighbors who are food insecure is the largest program of its kind in the United States and the model many other states have emulated. HSH held its official 2022-23 Season Kickoff & Press Conference at the Collier's Sportsmen's Association in Allegheny County. Since being asked to be part of this positive effort in January 2021, it was the first time the Kickoff was held in Western PA and I eagerly accepted.

The site was secured by Kip Padgelek, who is a foundation of HSH's ongoing efforts. Kip is the Area Coordinator for Allegheny County and also the owner of Kip's Deer Processing in Carnegie. In 2020, HSH received 4900 donated deer statewide, which translated into a record 190,000 lbs. of nutritious venison during the pandemic, when many hunters had additional time to be in the woods. Exceeding expectations in 2021, hunters once again donated 187,000 lbs. of venison statewide. The amazing thing is Kip's Deer Processing in Allegheny County, with its abundant deer and ample WMU 2B antlerless tags, processed roughly 40,000 lbs. of venison both years. This represents just under 1,000 deer per year or 1/5 of all the deer HSH took in. Many speakers during our Nov. 10 gathering acknowledged how Kip's ongoing efforts help so many individuals, families, and children who need food, especially lean protein.

Our Kickoff Host was Randy Ferguson of Mercer County, HSH Executive Director. His remarks, insight, and introductions were augmented by those of John Plowman, HSH Founder, Retired Executive Director, and Emeritus Board Member. Attesting to the broad support HSH has across state government and charitable organizations, speakers included: (1) Cheryl Cook, Deputy Secretary, PA Dept. of Agriculture; (2) Seth Mesoras, Information & Education Supervisor, PA Game Commission, Southwest Region; (3) Sheila Christopher, Executive Director, Hunger-Free PA; and (4) Tim Anderson, Bethany Presbyterian Church and Director of the Bridgeville Community Food Bank. While Cheryl, Seth, and Sheila shared the "big picture" impact of HSH's efforts statewide, Pastor Anderson focused on struggling individuals and families he

sees and how donated venison truly helps fill a need during difficult times.

Part of HSH's grassroots effort to get the word out to hunters to encourage participation are the Area Coordinators in each county. Besides Kip Padgelek (Allegheny), other local coordinators present included: Nick Lutes (Lawrence), Ben Moyer (Fayette & Greene), Sam Rue (Westmoreland), along with more distant Krisinda Corbin (Northumberland) and Rose Anna Moore (Tioga). I have the privilege to serve as an Area Coordinator for Lawrence and Beaver Counties. To reach any area coordinator or one of our participating local processors, please visit HSH's website: [sharedeer.org](http://sharedeer.org). There you can find phone numbers to get more information on how to donate your deer at Doug Peffer's Deer Processing (Ellwood City), Colton Huston's Nashua Processing (Pulaski), or Beatty's Country Market (Enon Valley).

While you normally wouldn't find them on the Kickoff Team, our special guests on Nov. 10 were

Retired Pittsburgh Steelers and regular HSH donating hunters: Brett Keisel and Ben Roethlisberger. "The Beard" shared how he has donated deer to HSH since 2002 and treasured having Tuesdays off from practice to pursue Allegheny County's abundant white-tails. Big Ben relayed his son has donated three deer this year, he has donated in the past, and his lineman always devoured the venison sticks he shared. Another significant part of the program were sizeable corporate donations from the CNX Foundation, Diehl Automotive, Safari Club International (Pittsburgh Chapter), National Fuel, and Range Resources.

The fact is only 1 to 2-percent of the deer harvested in PA are donated to Hunters Sharing the Harvest. We can do better to help our neighbors in need. As Pastor Anderson shared, James 2:15-16 tells us, "Suppose a brother or sister is without clothes or daily food, if one of you says to them, 'Go in peace, keep warm, and well fed,' but does nothing about their physical needs, what good is it? If you harvest one or more deer to fill your freezer with all the venison you need, please keep hunting to fill your additional tags and donate the deer to HSH to help feed someone else! God Bless, Be Safe, and Great Outdoors!"
