TRIVIA TEST?

by Fifi Rodriguez

1. MUSIC: Which band sang the theme song to TV's "Friends"?
 2. ANATOMY: What is the only bone in the human body that isn't attached to another bone nearby?
 3. LITERATURE: What is the setting for the "Anne of Green Gables" novel series?
 4. TELEVISION: Who plays the lead role in the sitcom "Mr. Mayor"?
 5. GEOGRAPHY: Where are the Spanish Steps located?
 6. HISTORY: How long did the first man in space, Yuri Gagarin, orbit the planet?
 7. AD SLOGANS: Which restaurant chain advises customers to "eat fresh"?
 8. SCIENCE: What is the only form of energy that can be seen with the human eye?
 9. SPORTS: Basketball Hall of Famer Kareem Abdul-Jabbar's signature one-handed post move shot was known by what nickname?

Outdoor Opportunities By COL (Ret.) Grey D. Berrier II

Don't Be Myopic - Allegheny County
Can Be Your Outdoor Destination

If we were having a conversation about the outdoors and the word Allegheny was brought up, I admit my initial thoughts would be of the 197-mile Allegheny River flowing from Kinzua Dam down to The Point in Pittsburgh, which offers extensive paddling opportunities for canoeists and kayakers. However, I recently became reacquainted with Allegheny County as an outdoor recreation destination and had to readjust my thinking only of "The City" as the place to go for professional sports, museums, and culture.

Back on Fri., Jan. 13, 2023, I had a 7:30 AM appointment in the South Hills. Afterward, I linked up with our son, Grey III, and we took the Red Line of their Light Rail Transit (the "T") from South Hills Village northbound to Dormont. Just stating a fact here, but as a life-long rural resident, I've taken public transportation in PA less than a dozen times in my entire life (not counting school buses, which were the norm). The only two other times I've ever ridden the "T" were to accompany our son to Penguins and Pirates games. I'm sure it was pretty obvious to other riders I was a "newbie", since I was taking all the sights in as we went down the rails and not one of the masses with their gaze fixed on a smart phone screen. Our destination was the Dor-Stop for a hearty breakfast, since we had seen the restaurant featured on Guy Fieri's Diners, Drive-Ins, and Dives years ago. We ate an excellent breakfast, and while human nature would be to take it easy and let it digest, our desire was to burn those calories as soon as possible.

After our return trip on the "T", we headed over to the Bethel Branch of the Montour Trail to get in some miles. The Bethel Branch stretches roughly 3.5-miles from Bethel Park in Allegheny County to the main Montour Trail in Peters Township, Washington County. Selected as PA's Best Rails-to-Trails Project in 2017, the Montour Trail follows a path through suburban and rural areas, stretching for over 50-miles, when the Bethel Branch is included. Its cinder surface, much like an older high school track, makes for easy walking, and we saw numerous other folks getting in their steps and exercising their dogs. With temperatures hovering around freezing and the clouds spitting snowflakes and some sleet, we were still somewhat surprised we didn't see anyone on a bicycle during our excursion. We logged just under 7-miles in one-hour and 45-minutes to maintain a 15-minute/mile pace and had a great con-

versation the entire time we walked. While we saw numerous birds and several small mammals, the highlight of our trip was seeing three American Robins eating autumn olive berries right along the trail. While it is well-documented all robins do not migrate south, it was still special to see our first ones of 2023 on Jan. 13!

If you're familiar with PA Hunt & Trapping Regulations, you know our 2022-23 statewide late flintlock season ended on Mon., Jan. 16, 2023. However, hunters have the opportunity to hunt for 12-additional days, if they travel down to Wildlife Management Unit (WMU) 2B, which includes most of Allegheny County, along with highly-populated, adjacent portions of Beaver, Butler, Washington, and Westmoreland Counties. Knowing the opportunity to pursue white-tailed deer with a flintlock rifle continues through Sat., Jan. 28, 2023, fellow outdoor writer Jerry Bush from Hermitage and I headed down to PA State Game Land 203 on Mon., Jan. 24. Allegheny County's sole state game land, this 1245-acre forested tract is located less than a mile west of I-79 in the Wexford area and provides public access to those interested in expanding their hunting seasons by traveling down to WMU 2B. We encountered 2-inches of fresh wet-snow, which clung to every tree, shrub, and plant. The abundant snow-covered brush made for slow-going, but that's the pace you want to move at when you are still-hunting and looking very closely for hidden deer at close and medium range. Wet snow necessitates lock covers to keep your flintlock's action dry and periodic checks are the norm to ensure your priming charge has not become "soupy" and nonfunctional from moisture in the air. While we didn't bring a deer home, I was rather surprised to find multiple groves of hemlock trees, a sizeable active beaver dam and lodge with numerous nearby trees in various stages of being gnawed down, and several sizable buck rubs providing evidence of their creators existence in the area. I was somewhat shocked by the absence of traffic noise while we hunted and can only attribute the sense of being in a much more remote area to its rolling hills.

The Monroeville Convention Center will host the USA International Sportsmen's Show & Outdoor Recreation and Travel on Feb. 17-19. I will be there on Fri., Feb. 17 at the PA Outdoor Writers Assn booth. If you attend, please stop by and introduce yourself! God Bless, Be Safe, and Great Outdoors!

Our Daily Bread

Something To Sing About

Read: Psalm 147

Praise the Lord! For it is good to sing praises to our God. Psalm 147:1

I understand why I've never been asked to join a choir or sing a solo. Musical talent is not one of my gifts. I discovered this at 9 years of age when I was outside one day singing. My mother opened the door and asked, "Is one of the calves sick? I think I just heard one."

My mother's words have never kept me from praising God in song, however. And when I preach somewhere, I enthusiastically join in congregational singing (making sure, of course, not to stand too close to the microphone).

God's great salvation fills me with gratitude, and one way to express my joy is to sing about it. That's why I'm puzzled by people who say they are Christians but admit that they seldom attend church services, almost never listen to Christian music, and find singing hymns and listening to sermons boring. I can understand non-believers saying this because they know neither God nor the joy of salvation. But believers do!

Reflect often and deeply on the riches you have in Christ. If you feel joyful, you will want to praise the Lord. And even if you are a poor singer like me, you'll still say a hearty "Amen" to the psalmist's words: "It is good to sing praises to our God" (Ps. 147:1). by Herbert Vander Lugt

I will sing of my Redeemer And His heavenly love to me; He from death to life hath brought me,
Son of God, with Him to be. —Bliss

A heart in tune with God will sing His praise.

PROPER RECYCLING COMPOSTING

A Guide to doing it right in Lawrence
and Mercer Counties

What is Composting?

Composting is the human intervention in the natural decay process. In nature, this process can take up to two years. We can shorten this process to six to seven weeks by adjusting and maintaining the moisture, oxygen, and Nitrogen content of the organic materials that we are composting.

Why is Composting Important?

Food and yard waste make up about 30% of our waste stream. Composting is a great way to reduce our waste, save landfill space, sequester carbon, and reduce greenhouse gas emissions. Finished compost is an excellent soil amendment and a great way to improve your soil. Residents and businesses in municipalities of more than 5,000 people are required by State law to separate leaf waste from other waste. These municipalities must also provide a collection program for the material.

Do I need a Compost Bin?

You can compost with or without a bin. People who want to use a bin can build their own or purchase a commercially available bin. There are plans available online to build a variety of bins.

How do I Compost?

1. First, pick a location for your composite pile. It should be convenient for you, partly shaded, dry, and flat. Items to consider when picking a location include your neighbors, water supply, and end use of the finish compost.
2. Next add your materials. The ideal ratio is three parts brown materials to one part green material. Green material is higher Nitrogen which feeds the microbes that drive the compost process. See back side for common brown and green materials. You may substitute a small amount of a Nitrogen fertilizer if you don't have green material available. Conversely, you can use sawdust or shredded paper/cardboard if you are short on brown materials.
3. Make sure your compost pile has sufficient moisture. It should feel slightly moist. If it is too dry, add water, and if it is too wet, add material.
4. Turn (mix) the pile every seven days. Check the moisture content after turning.
5. You should have compost in six to seven weeks if you followed the 3:1 recipe, turned it regularly, and maintained the proper moisture content.

www.lawrencecountypa.gov/recycling

This article is funded in part through a grant from
the PA Department of Environmental Protection

Recycling/Solid Waste
Department

(724) 658-6925

WHAT CAN I USE COMPOST FOR?

Finished compost is a great soil amendment that should be mixed in with the top 6 inches of soil. Compost is also a suitable mulch. Compost can be used as a potting mix - more than a quarter to a third of the total potting mix should be compost.

What should I avoid in my Compost Bin?

- Meat, Poultry, & Fish
- Diseased Plants
- Weeds w/Seeds
- Coal Ash
- Dairy Products
- Pet Feces
- Branches
- Bones
- Cooking Oil/Oily Foods
- Invasive Weeds
- Treated Sawdust

There are many sources of information available that cover all aspects of backyard composting. Be sure to visit our website to download our "Keep it at Home: Compost" booklet for more detailed information.

Are You Covered?

In time of emergency, the last thing you should worry about is if your emergency ambulance transportation will be financially covered. Insurance carriers may cover only a portion of your emergency transportation.

With all the recent changes in HEALTHCARE it's more important than ever to have an ambulance membership.

Strange But True

by Lucie Winborne

- Got a mouse problem at your house? Your grocery store might provide a quick and easy answer in the form of bananas. Male mice are scared of their scent – especially virgin male mice.
- “Ergophobia” is the fear of work or the workplace. Psychologists attribute the condition to a combination of concerns about failing at tasks, public speaking and social anxiety.

Out on a Limb by Gary Kopervas

ESCALATOR MUSIC

“Calisthenics is the secret of health, dad,” a young girl just home from college stated enthusiastically. “Look!” To develop the arms and shoulders I only have to take this wand at either end, hold it vertically before me and swing the lower end rhythmically from side to side.” “Well, what won’t science discover next!” marveled her father. “If that wand had straw on lower end, you’d be sweeping.”

- Use salt to clean out your garbage disposal. Kosher salt has larger grains that work very well. Dump a half-cup in the disposal, run the cold water and hit the switch. The grains scour the inside, leaving a better smelling drain.

Now Here's A Tip

by JoAnn Derson

• "The all-time best remedy for a runny nose or sore throat doesn't cost hardly a thing: It's plain old salt-water. Mix a half-teaspoon into a cup of hot water and gargle twice to three times a day. If the taste is off-putting, try swishing a bit of mouthwash in your mouth just before you gargle with the saltwater. This works so well, and even my doctor thinks it's a great idea." - F.L. in Michigan

Natural Help for Optimum Health
*Good Health should be our most important asset.
Why not take charge of your health today.*

Most people on my whole health program see all their numbers go down: sugar, cholesterol, blood pressure, and weight. The only thing that increases is your energy, quality of sleep, and general overall health improves.

"I have no desire to crow over anybody or to see anybody eating crow... We should all get together and make a country in which everybody can eat turkey whenever he pleases." - Harry S Truman

Kovels
 Antiques and Collecting by Terry and Kim Kovel

Q: I was left a Lane Cedar Chest that has an aroma tightness feature. The size of the chest is 17 1/2 inches high, 19 inches deep and 44 inches wide. The inside of the chest is in excellent condition, but the outside does have some wear on it. I'm not sure if it's worth holding on to.

A: Lane started in 1912 as the Standard Red Cedar Chest Company in Altavista, Virginia. John Lane was president and his son, Ed, was vice president and general manager. It became The Lane Company in 1922.

The company was known for its cedar chests, which were often used as "hope chests" by brides-to-be. Lane began making occasional tables in 1951 and expanded to include lines of bedroom, living room and dining room furniture in the 1960s and '70s.

You can find the age of your Lane chest by looking for the serial number on the bottom. If you read the number backward, you will find the production date. For example, serial number 753150 indicates the chest was produced on 05/13/57. An extra digit at the end of the serial number is the plant number.

Value depends on style and condition. Some Lane chests sell for less than \$50, others for over \$100.
