Antiques and Collecting by Terry and Kim Kovel

Q: My mom has a Furby Baby in its original box and is wondering what it could be worth and how to sell it.

A: Furby and Furby Babies are battery-operated electronic toys that can "talk." The toys have their own language, "Furbish," but can learn to speak English and several other languages. Furby was created by Dave Hampton and Caleb Chung. They sold the rights to the toy to Tiger Electronics Inc., which became part of Hasbro in 1998. Furby quickly became "the toy" to have and millions were sold. Furby Babies were introduced in 1999. They are smaller and know more phrases. They were made in 25 different colors. Hasbro stopped making the original toys in 2000 but has made new Emotronic Furby toys since then. Furby Babies sell today for about \$20 to \$40 without a box and \$40 to \$60 in the original box. ©2024 King Features Synd., Inc.

Do I Belong?
What can stand in the way of my being baptized?
Acts 8:36
READ Acts 8:29-39

Our Daily Bread

Actress Sally Field finally felt what we all long for. When she won a second Oscar in 1985, she exclaimed in her acceptance speech: "I've wanted more than anything to have your respect. The first time I didn't feel it. But this time I feel it. And I can't deny the fact that you like me, right now, you like me."

An Ethiopian eunuch was also amazed by his acceptance. As a gentle and as a eunuch, he was denied entrance into the temple's inner courts (see Ephesians 2:11-12; Deuteronomy 23:1). Yet he yearned to be included. Philip found him returning from another unsatisfying pilgrimage to Jerusalem (Acts 8:27).

The Ethiopian man was reading Isaiah, which promised that eunuchs who "hold fast to my covenant" will receive "within my temple and its walls a memorial and . . . an everlasting name" (Isaiah 56:4-5). How could this be? Then Philip "told him the good news about Jesus," and the man responded, "Look, here is water. What can stand in the way of my being baptized?" (Acts 8:35-36).

He was asking, Am I really allowed in? Do I belong? Philip baptized him as a sign that Jesus had bulldozed every barrier (Ephesians 2:14). Jesus embraces—and unites—everyone who turns from sin and puts their trust in Him. The man "went on his way rejoicing" (Acts 8:39). He finally and fully belonged. By Mike Wittmer

Why do all believers in Jesus belong in His family? How might baptism impress this fact on your heart?

Dear Jesus, I belong with God and His family because I belong to You.

Outdoor Opportunities

By COL (Ret.) Grey D. Berrier II

It's a Traditional Rule, Wool is a Very Effective Tool When It is Cool Outside

Did you ever buy someone a Christmas gift well in advance and then realize you just couldn't wait until December 25 to give it to them, so you gave it to them early in order for them to have the item in case they needed it? Please permit me to explain, since it happened to me this year. Back in late Sep., I was out in Eastern PA visiting my parents and as I usually do, I stopped by one of my favorite stores, Priority One Surplus (just off I-78 by the Cabela's megastore in Hamburg, PA). They had new/unissued heavy Canadian Civil Defense (Emergency Health Service) wool blankets from the 1950's to early 1960's on sale. I ended up purchasing six, one each for my wife, our three children, our son-in-law, and myself.

We are all a product of our cumulative experiences in life, so allow me to share my reasoning. Back in early Feb. 2010, within 6-weeks of making the transition from Fort Indiantown Gap Garrison Commander to full-time Officer-In-Charge (OIC) of 2d Brigade, 28th Infantry Division in Washington, PA, I had the humbling privilege of serving as Commander-of-Troops for the significant PA National Guard response to "Snowmageddon," the historic Winter storm which dumped over 2-feet of snow on Pittsburgh and Western PA. With over 800 soldiers and airmen utilizing 400 Humvees, we assisted local government officials and first-responders dealing with the weather's impacts and consequences. One part of that mission always comes back to my mind. It was the multiple miles-long traffic closure on the PA Turnpike resulting from two tractor-trailers jack-knifing side-by-side going up a treacherous snow-covered hill and the hundreds of vehicles stranded in place for almost 36-hours. Many of those motorists were ill-prepared to spend that length of time stranded and for a significant number, it was the coldest and most miserable night of their lives. We take it for granted limited access highways like the PA Turnpike, I-376, I-80, and I-79 will remain open, but when something impedes traffic, you are often stuck. One piece of emergency gear that comes in handy for keeping warm in an unanticipated situation like that is a heavy wool blanket. That was the logic behind my early 2024 Christmas gifts, which I gave to my loved ones back in Oct.

Mankind has been utilizing wool, the fibers from the fleece of sheep, for thousands of years. Wool was a first choice amongst the frontiersmen and pioneers who initially explored and settled our

portion of Western PA over 250-years ago and it remains a preferred option for hunters, hikers, campers, bushcrafters, and those individuals whose jobs require them to work outside in all weather and temperatures, like farmers, loggers, utility workers, and construction workers. In spite of all the developments in synthetic materials since World War II, there are still many inherent qualities which still make wool a solid choice when it comes to clothing and bedding. You might be missing out on a good thing if your outdoor clothing and gear does not include wool options for keeping you warm, dry, and comfortable.

Here are some of the qualities and benefits of wool: (1) Natural Insulation Properties – Due to its natural crimp and hollow spaces, wool traps air and reduces thermal conductivity making it an excellent insulator. One of wool's best features, in my opinion, is its ability to retain 80% of its insulating value when wet. Cotton, down, and most synthetic materials retain very little insulating value when wet. That makes wool my "Go To" when paddling cooler waters or heading outdoors on rainy days. (2) Moisture-Wicking Ability – Wool can absorb up to 30% of its weight in humidity without feeling damp. Like many modern synthetic fibers are touted to do, wool will wick moisture away from your skin and permits it to escape into the air as water vapor. (3) Exceptional Durability – Wool fibers can be bent over 20,000 times without breaking, which makes it very elastic and resistant to tearing. This long useful life is exemplified in the number of Woolrich hunting coats and other wool clothing items that are handed down within families. (4) Flame Resistance – Wool is naturally fire-resistant and doesn't need to be treated to be non-flammable. I have numerous synthetic outdoor garments with pinhole burns and scorch marks from stray campfire sparks, but wool will not bear scars from sitting too close to the fire. (5) Hypoallergenic – Wool is soft and produces few dust particles, making it naturally hypoallergenic. Some individuals may find wool to be itchy against their skin, but that is usually due to lower quality wool with shorter fibers.

A wool blanket can be wrapped up in, used as bedding, employed as an insulated seat, spread as a picnic blanket, or worn as a coat, poncho, or cloak. Don't be a fool. Consider wool as an option when keeping warm and dry is a priority, even in an unexpected situation. **God Bless, Be Safe, and Great Outdoors! ©WBB2024**

• Christian Louboutin manufactured a limited edition shoe for brides. They had baby-blue soles to give the bride "something blue," but the company ceased production after copyright issues.

• England's Queen Elizabeth II had her shoes broken in for her by her personal assistant and senior dresser. The idea was that she couldn't afford for her shoes to be uncomfortable or give her blisters while on official business.

Strange But True

by Lucie Winborne

• The Caesar salad was actually invented in Tijuana, Mexico, in 1927. Hotel Caesar owner Caesar Cardini wanted to make dinner for friends but didn't have a lot of available options, so he tossed lettuce into a bowl with a dressing made from whatever he could find at the moment.

TRIVIA TEST ?

by Fifi Rodriguez

1. MOVIES: In the movie "The Shawshank Redemption," what is Andy Dufresne's occupation before he was imprisoned?
2. LITERATURE: Which of Shakespeare's plays features the characters of Rosencrantz and Guildenstern?
3. TELEVISION: Which 2000s TV drama starred a character named Jack Bauer?
4. U.S. PRESIDENTS: What was First Lady Jacqueline Kennedy's maiden name?
5. HISTORY: Which dynasty built the Forbidden

City in China?

6. MYTHOLOGY: What is the name of the mythical creature who is half man and half horse?

7. CHEMISTRY: What is aqua regia?

8. GEOGRAPHY: Where was the ancient region of Mesopotamia mostly located?

9. ANATOMY: Where are the alveoli located?

10. FOOD & DRINK: What is hummus mostly made of?

11. SPORTS: Name the wide receiver who threw a 43-yard touchdown pass for the Pittsburgh Steelers in their 21-10 win over the Seattle Seahawks in Super Bowl XL. (Hint: He played quarterback for the Indiana Hoosiers.)

PROPER RECYCLING PRECYCLING AND WASTE REDUCTION

A Guide to doing it right in Lawrence and Mercer Counties

What is "Precycling"?

Precycling is the practice of reducing the amount of your trash and recyclables by taking action before you buy something.

Examples of precycling are: Limiting purchases to things that you need. Delaying purchases that aren't urgently needed. Buying in bulk to avoid extra packaging.

Why Does This Matter?

Much of what we throw away or recycle can be avoided. In addition to filling up landfills, some items can be hazardous to us and our environment.

What Can I do?

Precycling is easy! Here are some easy suggestions to get you started.

Plastic Bags - Bring reusable shopping bags to the stores.

Individually Wrapped Products - Buy products in bulk with little to no packaging.

Coffee Filters - Use reusable coffee filters instead of single use paper ones.

Coffee Shop Cup - Take your own reusable cup or travel mug.

Disposable Eating Utensils - Opt for reusable plates, take-out containers, or silverware.

Paper or Plastic Lunch Bag - Take a lunch box or reusable bag.

Take-out Food - Bring reusable containers.

Single Use Plastic Water Bottles - Use refillable bottles.

Paper Towels - Use cloth towels.

Photocopies - Print double sided to save paper.

Notebooks - Buy paper that has post-consumer recycled content.

Household Batteries - Buy rechargeable batteries and a charger or use solar powered substitutes.

Recycle chargeable batteries instead of discarding.

Appliance, Tools and Equipment - Repair, share, and lend things such as equipment and tools.

Replacement products - Spend a little more to buy durable goods that will last longer and save money over time.

Home improvement supplies - When you have left over supplies, give them to a friend or donate them to Habitat for Humanity.

Straws - Use metal or hard plastic reusable straws.

Fun Fact

"Precycling" is part of the Reduce Reuse & Recycle Movement.

Refer to our fact sheet on Household Hazardous Waste Alternatives to learn how to reduce toxic material in your home.

EXAMPLES OF HOW TO PRECYCLE DURING YOUR DAILY LIFE

These two people are having lunch. One is practicing precycling with reusable containers and one is not practicing precycling, because her packaging is single use.

Try to live more like the person on the left and use reusable items when possible.

NEW WILMINGTON BOROUGH RECYCLING INFORMATION

Who must Recycle: All residents and businesses of New Wilmington are required to recycle at their curb. Property managers must provide recycling for housing, condo, or apartment complexes for situations where they arrange for trash disposal.

Contact:

Tri-County Industries - 724-748-4705.
Borough Office - 724-946-8167
<http://www.nwboro.com/trash-recycling>
<https://www.tricountyind.com/recycling>

How are Materials Collected: At your curb. Materials can be mixed together. Each household has previously been issued a blue 95-gallon recycle tote. The recycle cart should be placed at the curb on Wednesday evening by 10:00 PM. Please leave at least 2 feet between the refuse cart and the recycle cart.

When: The current schedule can be found on the Borough's website. Recycle collection is currently every other week on Thursday.

Spring Cleanup: A spring cleanup is held annually for Borough residential customers. Consult the website or contact the Borough for the schedule.

Large/Bulky Item Pickup: Bulky items are collected throughout the year through special arrangements with Tri-County Industries. Contact the borough office to arrange special pickups.

Leaf & Yard Waste (excluding grass): Consult the schedule on the Borough website. Leaf waste must be placed in a brown paper leaf bag.

Christmas Trees: Christmas trees are collected through January 30th. Trees must be at curb by 7 a.m. on each Monday.

Electronics and Household Hazardous Waste/Chemicals (HHW):

Electronics and HHW are collected curbside by appointment. Schedule an appointment by:

1. Calling Tri-County Industries at (724) 748-4705 or (800) 457-8202;
2. Email customerservice@tricountyind.com; or
3. On the Web at <http://www.tricountyind.com>.

Recyclable Materials Collected

- Glass* food/beverage BOTTLES/JARS/JUGS
- Aluminum
- Steel, and Tin CANS
- Plastic BOTTLES & JUGS
- Corrugated Cardboard, Magazines, Newspapers, Including Inserts
- Mixed Office Paper
- Junk Mail

Only bottles, jugs, cans, and clean paper are recyclable in the curbside program. Do not place materials in plastic bags and do not include any items not listed. Acceptable materials may periodically change so always follow the information provided from your hauler. Businesses must also recycle but may pick the recycling hauler of their choice.

<https://lawrencecountypa.gov/departments/recycling-and-solid-waste>

www.mercercountypa.gov/recycling

This article is funded in part through a grant from the PA Department of Environmental Protection.

USEFUL INFORMATION:

Recycling can be confusing because what is accepted as recyclable may be different between hauling companies and communities. Recycling programs are driven by markets and vary from region to region and state to state. Newer residents that move to our community are often surprised by the differences.

“Wishcycling” and Contamination

Contamination occurs when trash/unacceptable materials are placed in your recycling bin. With wishcycling people mean well, but unintentionally hurt recycling programs by placing the wrong materials into their bins. Examples include plastic toys, food containers, tubing, or buckets. When placed in the recycling bin, these and similar items must be physically removed and then landfilled. It is estimated that up to 20% of the cost of recycling is used to deal with items that should have been placed in the trash. Items that are not listed as recyclable WILL NOT get recycled. This includes plastic bags.

Plastic is the most confusing material because it comes in a variety of forms and resins that are chemically different. People often think that because something is “plastic” that it is recyclable. This is not the case. The same holds true with the “recycling” symbol and number commonly found on plastic items. The purpose of the symbol and number is to indicate the resin type. It has nothing to do with recycling!

Instead, focus on the shape of item. When it comes to recycling, think “plastic bottles/jugs, metal cans, and clean paper.” If you’re holding a plastic item, consider if it is a bottle. For example, butter tubs, yogurt containers, and clam-shell/take-out food containers are plastic and usually have a recycling symbol and number on them. But—they are not a bottle/jug and belong in the trash. When in doubt, throw it out.

How to Prepare Your Recyclables

A simple rinse of food/beverage bottles and jugs is all that is needed. Cardboard should be flattened and mixed papers (magazines, junk mail, newspapers) can be placed in your bin loosely or in a brown paper bag. Do not put any materials in plastic bags. Plastic bags must be ripped open. And loose bags jam conveyor belts and gears. They are a significant cost to manage when they get into the system and will not get recycled at the recycling center. Many local grocers accept plastic bags for recycling.

Paw's corner
 by Sam Mazzotta

DEAR PAW'S CORNER:
 I'm 16 and love pets – I have a dog, cat and an iguana already – and I want to start my own pet sitting business. What is the best way to start? How do I get customers? Do I need a license or something? – Jeannie H., Pittsburgh

DEAR JEANNIE: Pet sitting can be a great business to get into. Every pet owner needs someone to watch their pet from time to time: long workdays, vacations, illness and so on. However, it's a business that carries a lot of responsibility. Being reliable is very important and is essential to building your reputation as a sitter that pet owners can trust.

I recommend a trial period first, with a couple of neighbors or your parents' friends. This will give you an idea of what the job entails, how long it takes to care for each pet, and can open your eyes to opportunities. For example, a neighbor who works from home may not need a sitter, but their dog could use an extra walk in the afternoon.

At the same time, study up on the requirements for running a business. Entrepreneurship courses are often available for free through your local library or at the Small Business Association (where you can also find a business mentor).

Most states don't have a licensing requirement for pet sitters, but you can get a certification through Pet Sitters International (petsit.com), or the National Association of Professional Pet Sitters (petsitters.org). These organizations offer a wealth of information – including how to find clients.

Most of all, have fun! You're getting into this business because you love pets, and that will be a big factor in your success. ©2024 King Features Synd., Inc.

Now Here's A Tip

by JoAnn Derson

• "I have small candy dishes out in my home, and I like to keep them filled with goodies throughout the year, but now, when I have little children over, I put them up high and let parents know that they and the children are welcome to have as much as they like. The parents appreciate this, as the children sometimes like to overindulge." – D.A. in RI

Recipe Corner

Cranberry Sauce

12 ounces cranberries
1 cup white sugar
1 cup orange juice
Gather all ingredients. Dissolve sugar in orange juice in a medium saucepan over medium heat. Stir in cranberries and cook until they start to pop, about 8 to 10 minutes. Remove from heat and place sauce in a bowl. It will thicken as it cools. Enjoy!

If two unrelated characters are drawn on the same cartoon frame, I'd call them cell mates.
