AGWAY

Feed your Lawn... And your Soil

Lawns are where we come together and make memories. At Jonathan Green our primary focus has been to help homeowners and turfgrass professionals grow and maintain great-looking, easy-to-care-for lawns.

4 Bag Annual Program

Early Spring -> Late Spring -> Summer -> Fall

The only Annual Lawn Care Program that feeds the lawn and the soil!

This program will not only gently feed your lawn but will kill weeds, balance soil pH and loosen hard soil.

5,000 Sq. Ft. Program **\$84⁹⁹** 15,000 Sq. Ft. Program **\$209⁹⁹**

SEEDS ARE IN !

Agway has everything you need to get seeds started for your garden and flower bed.

- Starting Pots and Soil •
- Planting Mix • Grow Lights •
- Onions Sets • Shallots • Onion Plants**

Our Daily Bread Really Live

Never will I leave you; never will I forsake you.
Hebrews 13:5. READ Hebrews 13:5-8

Thousands of people prayed for pastor Ed Dobson when he was diagnosed with ALS in 2000. Many believed that when they prayed in faith for healing, God would answer immediately. After twelve years of struggling with the disease that caused Ed's muscles to atrophy little by little (and three years before he died), someone asked him why he thought God hadn't healed him yet. "There's no good answer, so I don't ask," he replied. His wife, Lorna, added, "If you're always obsessed about having to have answers, you can't really live."

Can you hear the respect for God in Ed and Lorna's words? They knew that His wisdom is above their own. Yet Ed admitted, "I find it nearly impossible not to worry about tomorrow." He understood that the disease would cause increasing disability, and he didn't know what new problem the next day might bring.

To help himself focus on the present, Ed placed these verses in his car, on the bathroom mirror, and next to his bed: "God has said, 'Never will I leave you; never will I forsake you.' So we say with confidence, 'The Lord is my helper; I will not be afraid'" (Hebrews 13:5-6). Whenever he started to worry, he would repeat the verses to help him refocus his thoughts on the truth.

No one knows what the next day will bring. Maybe Ed's practice could help us turn our worries into opportunities to trust. By Anne Cetas

What Scriptures help you to focus on today and not worry about tomorrow? Where might you place them to help your faith grow?

Help me to remember, Father, that You're God, and I am not. Please teach me to trust You.

Kovels Antiques and Collecting TIPS

by Terry and Kim Kovel

- Dust leather furniture with a dry cloth and vacuum crevices and edges. Use a leather conditioner once a year. Wipe up spills with a cloth or sponge using lukewarm water and let it air dry. Do not use soap or soak the stain.
- Don't put wood, paper or textiles near heating vents or fireplaces. Heat will harm them.
- Rearrange furniture once a year to avoid noticeable sun fading.

PROPER RECYCLING CURBSIDE RECYCLING IN LAWRENCE COUNTY

A Guide to doing it right in Lawrence
and Mercer Counties

There may be differences in programs depending on where you live. Always check with your recycling hauler or municipality if you have questions about your program.

What is "Curbside Recycling?"

Curbside recycling is simply having recyclables picked up at your home. It does not mean that a physical "curb" is required.

Am I Required to Recycle Curbside?

All residents and businesses of the following municipalities are required by state and local laws to recycle curbside: *City of New Castle, Ellwood City Borough, Neshannock Township, Shenango Township, and Union Township.*

These are called "Mandated Municipalities." Residents and businesses in New Wilmington Borough are required to recycle curbside by local laws. Residents and businesses of all other Lawrence County municipalities are not required to recycle curbside, but are encouraged to do so voluntarily. See "I live in a Municipality where I am not required to Recycle Curbside, but I would like to do so. What options do I have for curbside recycling?" for more information.

What Can I Recycle?

Most curbside recycling programs in Lawrence County collect recyclables via "single stream" recycling. Single stream recycling is designed to make recycling as easy as possible for residents. All of the materials listed below can be mixed together in the same container. There is no need to separate them. The following materials are usually included in single stream recycling programs:

- #1, #2, and sometimes #5 Plastic Bottles & Jugs
- Aluminum Cans
- Steel/Tin Cans
- Magazines
- Corrugated Cardboard
- Newspaper
- Paperboard (cereal boxes, etc.)
- Junk Mail

If it is not on the list - it belongs in the trash. When in doubt, throw it out or recycle it elsewhere. Acceptable materials may differ between haulers. Be sure to follow the guidelines provided by your hauler!

What are the advantages of curbside recycling over a drop-off recycling program?

Curbside Recycling is:

EASY - All materials can be mixed together in the same container.

CONVENIENT - You can do it at your own home without making a special trip to a recycling site.

ENVIRONMENTALLY FRIENDLY - No more using your gas to go to a recycling site. We estimate that 400,000 cars use the county recycling drop-off sites annually consuming about 48,000 gallons of fuel in the process.

I live in a municipality where I am not required to recycle curbside, but I would like to do so. What options do I have for curbside recycling?

Effective October 9, 2014, all haulers providing regular trash collection services are required to provide recycling services to residents that request it but do not live in a Mandated Municipality. This requirement is for haulers only. Residents are not required to request the service and may decline it if offered. There may be additional fees for recycling. To summarize: if you want to recycle curbside at your home, your hauler must provide you with the service.

What kind of recycling bin can I use for curbside recycling?

Recycling bins vary. Some haulers and municipalities will provide you with a container. You can also purchase your own container through a local hardware or department store. Wheeled containers and carts are easy to move and provide adequate room for all your recyclables. Additionally, wheeled carts have lids that prevent litter and keep recyclables dry. Traditional bins may be used as well but are prone to accidental littering in windy conditions.

What about Plastic Bags, Toys, Windows, etc.?

These items do not belong in your recycling bin. Plain and simple. Plastic bags can be recycled at some local stores. Items such as plastic toys, chairs, and food containers and glass windows, ceramics, and Pyrex all go into your trash. If it is not a bottle, jug, can, jar or clean piece of paper, it does not belong in your bin.

Including items not listed for recycling contaminates your recyclables and significantly increases the cost because all contaminates must be removed before the material can be recycled.

What about Leaves?

All Mandated Municipalities, including New Wilmington, offer leaf waste collection. Contact your municipality for details.

What about Electronics, Paint, Chemicals, Fluorescent Lights, Tires, etc.?

Local options do exist for these items. Check out the Lawrence-Mercer Recycling Solid Waste Department website, www.co.lawrence.pa.us/ recycling for information about these materials. Click the "Calendar of Events" link for a listing of planned events that serve our area.

Outdoor Opportunities

By COL (Ret.) Grey D. Berrier II

Fishermen Aren't the Only Ones Out There Pursuing Trout in PA Waterways

The countdown has begun and it's almost time. The stocking trucks have made their trips from PA's trout hatcheries sometime in the latter half of February or the first weeks of March to the many streams, creeks, rivers, lakes, and reservoirs selected to hold trout. It is by design these fish are put into the various waterways several weeks before trout season opens, so they have the opportunity to become acclimated to their new watery homes. This includes spreading out to find suitable cover and feeding stations as they learn to become "independent," which includes sustaining themselves on various forms of insect life and other potential food sources, instead of the steady diet of fish pellets they grew up on in a fish hatchery.

Saturday, March 29, 2025, is our PA Mentored Youth Trout Day. This special one-day season is designed to allow youth anglers under 16 the first opportunity to fish stocked trout waters, when trout are most abundant. To participate, youths must possess either a Mentored Youth Permit or Voluntary Youth Fishing License and be accompanied by a licensed adult. The following Saturday, April 5, is the Opening Day of PA's Statewide Trout Season and starting at 8 AM determined anglers will be plying the waters with a wide variety of baits, lures, and flies to entice trout to bite. It is always interesting how some recently stocked trout are easy to catch and others released at the same time can be challenging.

What you may not know is that even before March 29 or April 5, our recently stocked PA trout have been under constant predation ever since they were initially released into the water from the stocking trucks. I'm not talking about the unscrupulous few, the "fish poachers," who have been fishing illegally in stocked trout waters prior to the legal start of the season and hoping they don't get apprehended by a Waterways Conservation Officer (WCO) or one of their Deputies. Rather, I'm talking about a variety of birds, mammals, and even some other fish who are opportunistic and won't shy away from a trout dinner.

Now, I don't want to be guilty of causing distracted driving, but have you ever noticed when you are traveling on I-376, just below the Mitchell Road Exit, when you look to the West about the moment you pass the "Speed Limit 55" sign in the eastbound lane, there are a significant number of large nests in the massive sycamore trees roughly 400 yards away. If you look closely,

especially during the Spring and Summer (it's easiest before the leaves come back out on the trees), you will often see rather large birds sitting or standing on many of those nests. What you are seeing is something very special. It is a Great Blue Heron Colony and Great Blue Herons are extremely proficient fishermen who love eating trout!

I can't tell you how many times I've been fishing a small stream or creek for trout stealthily working my way upstream and I'll come around a bend to find a Great Blue Heron standing statue-like, just waiting to grab an unsuspecting trout. Often times you will find their large footprints (which appear much like a wild turkey's) in the streamside sand or mud, or visible underwater in the soft bottom, and also large white patches where they defecated after consuming a meal. Sometimes you will encounter them sitting on an overhead branch just watching for their next prey. Great Blue Herons will either grab trout or spear with them with their bills before swallowing them whole. I remember a PSU fisheries professor telling us a Great Blue Heron can digest an entire 14-inch trout in 12-hours. If each of those Great Blue Herons from our local colony were to take a trout a day from local waters, the toll would quickly add up.

Standing roughly 3.5-foot tall, with a massive almost 6-foot wingspan, Great Blue Herons seem to be in regular flight paralleling the Shenango River with their legs straight back and necks curled in an "S." They slowly flap their wings and occasionally make a croaking sound as they head out in the morning and return to their colony in the evening. I've also seen them many times flying overhead at Giant Eagle on Wilmington Road as they head to or from Neshannock Creek. Great Blue Herons are a primary reason why fish hatcheries require protective netting to avoid predation on the valuable fish they are raising.

Besides Great Blue Herons, other birds that may take an occasional trout include bald eagles, ospreys, and cormorants. When it comes to mammalian predators, the likely suspects include otters and mink, with possibly an opportunistic raccoon, beaver, black bear, or bobcat taking a trout here or there. Then there are the Alpha predators of the waterways, like muskellunge and flathead catfish, that won't hesitate to consume any trout they may encounter. The trout you are after also has many other predators pursuing it! Trout soon learn to be "the quick" or they'll be "the dead!"

Now Here's A Tip

by JoAnn Derson

- There's no end to the quick time-savers and innovations in the kitchen. Today's homemakers are likely to have a full-time job already. Here's one for those mornings when you want to get a little fancy, but don't have all day: Make hash browns in a waffle iron. Parboil shredded potatoes the night before. Store in the refrigerator in a plastic bag. Generously oil your waffle iron and scatter precooked potato shreds on. They cook twice as fast, and have all of the double-sided crispiness of pan-fried.
- White vinegar will clean off fruit or food coloring stains on your hands. ©2025 King Features

• Try prep cooking once a week for as many elements of that week's meals as possible. Chop veggies, saute or even brown meats for casseroles or prep slow cooker bags. It does save time if you are able to cook two meals at once, say, roast two chickens: one for tonight's dinner and another for chicken enchiladas later in the week.
