Outdoor Opportunities

By COL (Ret.) Grey D. Berrier II

Norwegians Say: "There's No Such Thing as Bad Weather, Only Poor Clothing Choices"

I can't definitively say when it first started, but I know it was common practice by the time our oldest child reached middle school in 2001. Like many parents, the mantra my wife and I frequently told our three children whenever they were leaving our presence and heading out into the world (school, sporting events, friend's house, church, shopping, etc.) was "Make Good Choices!" If you are a parent or grandparent, you've probably uttered similar words to someone you love. Our three children are now in their early thirties and words to that effect are still exchanged in our family. However, our kids often beat us to the punch and tell either my wife or me to follow that sage advice when we depart their presence.

Well, from my very recent observations, I guess there are a lot of Pennsylvanians who didn't hear it enough or never received that guidance, because their actions definitely spoke louder than words. On Sat., Nov. 14, our son and I made the just under three-hour drive to State College to attend the Penn State vs. Minnesota football game at Beaver Stadium. We started checking the weather a week out and when the day arrived, we knew we were looking at temperatures in the upper 30's, steady winds, and a good possibility of rain showers when kickoff rolled around at 7 PM. We both took ample layers of clothing, headwear, and boots to comfortably sit in the stands for almost 5-hours, regardless of what the weather threw at us.

Early in my military career in Alaska, I learned the old Norwegian saying, "There's No Such Thing as Bad Weather, Only Poor Clothing Choices," and they should know based on their remarkably diverse climate and latitude. It was windy and drizzling when we arrived at our designated parking area just before 5 PM and we immediately started to see poor clothing choices in the tailgating areas, during our walk to the stadium, and inside the stadium. Now, we also went to the Purdue game back on Oct. 31 when it was a 4 PM kickoff with temperatures in the mid-50's with almost no wind and zero cloud cover. Unfortunately, many Penn State fans dressed the same way on Nov. 14 as they did on Oct. 31, in spite of completely different weather conditions. Now, I know we're not supposed to judge others, but when you pass so many folks wearing only a long sleeve T-shirt, or a cotton hoodie, or running shoes with ankle socks, and no hat; you just knew they were in for a miserable game experience, given the harsh weather.

Let's review a few principles for properly dressing in PA's upcoming colder weather conditions regardless of whether you are working outside, hunting, sitting in the bleachers at a football game, watching a holiday parade, or for any other reason that will require you to be outdoors for an extended time period. First, most clothing items do not generate heat. The exception being newer electronic heat gear (coats, vests, gloves, socks) or chemical reaction heat packets. Rather, most clothing items provide **Insulation** and simply trap the warm air your body generates. When it comes to your clothing choices, the Army has a good acronym to remember: **C-O-L-D**. It stands for: (1) Keep it **Clean**; (2) Avoid **Overheating**; (3) Wear it Loose and in **Layers**; and (4) Keep it **Dry**. That is why we caried many of our additional clothing items (outer coat, hat, and gloves) to the stadium and only put them on when were in our seats. Remember the unforgiving truth that "Cotton Kills," since it adsorbs moisture, doesn't dry out quickly, and loses its insulation value when wet. I had on multiple base layers of polypropylene, since it wicks away perspiration and continues to insulate, both vital to retaining the body heat you've generated.

Some basic scientific principles come into play when you are outdoors. (1) **Conduction** – That folding chair, bleacher, log, rock, or tree stand seat you sit on is going to steal your body heat. You need to always put a cushion, pad, blanket, or something under your bottom when you sit down. (2) **Convection** – Moving air (the wind) is going to steal your heat, if you do not have a wind-proof outer garment. This is "Wind Chill" in action and it is very real, so it needs to be taken into consideration when making clothing choices. (3) **Radiation** – Your body is a furnace and generates heat to keep your internal organs and brain at a constant body temperature. You lose a significant portion of your body heat through your head, if it is uncovered, so wear a hat or multiple layers on your head. If your internal body temperature goes down, your body naturally restricts blood flow to your extremities (thus your fingers and toes get cold).

In the Army, we called it **"Snivel Gear"**. Always bring one more layer than you think you will need. Then you have something to put on, if you get chilled. Wind, moisture, and cold are very real enemies. Dress properly to win the fight when heading outdoors!

God Bless, Be Safe, and Great Outdoors!

Strange But True
by Lucie Winborne

- After Isaac Newton died in 1727, he left behind notes, manuscripts and correspondence totaling more than 50 million words -- enough to create about 150 novel-length books.
- One acre of growing Christmas trees provides the daily oxygen requirement for 18 people.
- At age 15, Oscar-winning actress Gillian Anderson was nearly fired from the nursing home where she worked ... for shaving her head. ©2026 King Features Synd., Inc.

Rustproof and Undercoat

Super Tough Environmental Protection

TST® PROTECTING WHAT MOVES US

TST Silent Rider™ Undercoat
- A permanent resilient finish that protects the underbody
- A barrier against gravel, road debris, and stones
- A strong resistance to rust, moisture, salt, and dirt pockets
- A reduction of road noise for a quieter, more pleasant ride
- A better appearance for the life of your new vehicle
- A fully transferable warranty to add to resale value

TST Rust Remedy™
- A solid warranty backed by the highest insurance rating in the world
- A deep penetration into 18 places, covering more than 127 square feet of your vehicle
- Meets or exceeds SAE Standards,will NOT void factory warranty
- Formulated by same personnel that developed cleaning and coating systems for NASA
- No annual inspection

One Time Spray
Never Needs Recoated

Recipe Corner

BIG COUNTRY CRAN-CHERRY COBBLER

21 oz. can cherry fruit pie filling
16 oz. can whole berry cranberry sauce
1/4 tsp. cinnamon
12 oz. can Pillsbury refrigerated Buttermilk Biscuits
1/2 C. powdered sugar
2 tsp. milk
1/4 tsp. almond extract
2 Tbsp. sliced almonds

Heat oven to 400°. In medium saucepan, combine pie filling, cranberry sauce and cinnamon. Cook over medium high heat until mixture boils, stirring occasionally. Pour into ungreased 10" quiche dish or 9" deep dish pie pan. Separate dough into 10 biscuits. Place on top of hot fruit mixture. Bake at 400° for 13 to 18 minutes or until deep golden brown. In small bowl, combine powdered sugar, milk and almond extract; mix until smooth. Spread evenly over hot biscuits. Sprinkle with almonds. 6 servings.

ELLWOOD
Crankshaft Group

YOUR SKILLS. YOUR FUTURE. BUILT ON HARD WORK. BUILT TO LAST.

Since 1910, Ellwood has built a proud tradition of American manufacturing, skilled craftsmanship and doing the job right.

At Ellwood Crankshaft Group, we make large, heavy-duty crankshafts that help power equipment used around the world. Our work can be found in locomotives, ships, pumps, compressors, power generation equipment and military vehicles.

From forging and heat treating to precision machining and finishing, our team members use their skills to create products built to perform for years to come.

Today, we're looking for dependable, hardworking people who take pride in a job well done and want the opportunity to learn valuable skills, earn a good living and build a long-term career.

No manufacturing experience? That's OK. For many positions, we provide the training you need to learn the job and succeed.

BUILD SOMETHING THAT MATTERS.

GREAT PAY. GREAT BENEFITS.

Our Daily Bread

Being Thankful Despite Trials

Enter his gates with thanksgiving and his courts with praise; give thanks to [God] and praise his name. Psalm 100:4. READ Psalm 100

I've been following and praying for a fellow writer who's been posting online about her cancer journey. She alternates between sharing updates about her physical pain and challenges and sharing prayer requests with Scripture and praises to God. It's beautiful to see her courageous smile whether she's in the hospital awaiting treatments or at home wearing a bandana because her hair is falling out. With each challenge, she never fails to encourage others to trust God during trials.

When we're going through difficulties, it may be challenging to find reasons to be grateful and to praise God. However, Psalm 100 gives us reasons to rejoice and give God praise despite our circumstances. The psalmist says: "Know that the Lord is God. It is he who made us, and we are his; we are his people, the sheep of his pasture" (v. 3). He adds, "For the Lord is good and his love endures forever; his faithfulness continues through all generations" (v. 5).

Whatever our trial, we can take comfort knowing that God is near to our broken hearts (34:18). The more time we spend with God in prayer and reading the Bible, the more we'll be able to "enter his gates with thanksgiving and his courts with praise" and "give thanks to him and praise his name" (100:4). We can "shout for joy to the Lord" (v. 1) even and perhaps especially when we're in a difficult season because our God is faithful. By Nancy Gavilanes

REFLECT and PRAY
What are you grateful for?
What can you praise God for right now?

Dear God, please help me
to praise You even in my trials.

Now Here's A Tip

by JoAnn Derson

• "Keep knitting yarn in check with empty tissue boxes. Set your yarn ball inside the box and let the string lead out of the top. When not in use, tape the string to the side of the box. Boxes can be stacked and stored for future projects." – C.W. in IN

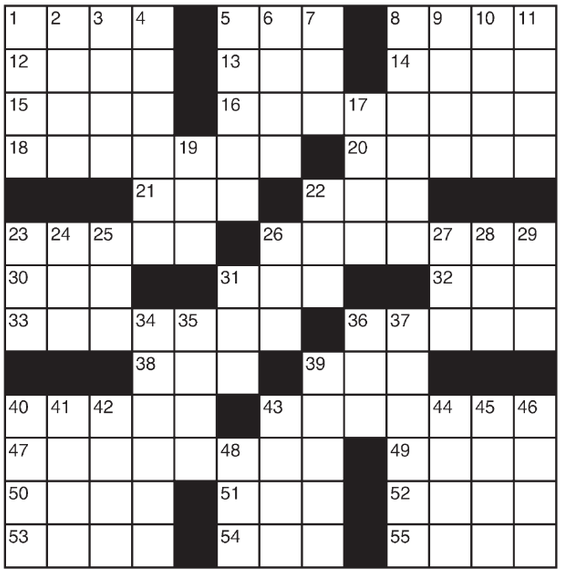

• "To make your drains fresh-smelling, shake a half-cup of baking soda into the drain. Then pour 2 cups of vinegar that you have warmed on the stove. It will froth and bubble. When it is done, run the hot water and give it a little scrub." – R.C. in Idaho

• Keep your jeans or other denim items from fading by soaking them in a solution of cold water and salt (2 tablespoons to a gallon) for about an hour before washing.

• Cookie sheets make great temporary mud and moisture trays for dirty shoes. Stash one at the entry to your home, and you will have less dirt tracked across your floors. ©2026 King Features
